Consulting services to the international standards.

Whether you are starting from scratch, making a transition to a new standard, or need last-minute tips before your scheduled registrar audit, Splendid Consultant is the experienced quality and environmental consulting resource that can save you time and money.

A properly functioning ISO based management system should be about continual improvement, providing value and becoming a company asset - not a liability. That is why you need the quality and environmental consulting capabilities of the professionals at Splendid Consultant .

Our experts work with you in developing a ISO based management system that complements what you do - not giving you the canned "one-size-fits-all" template that forces sweeping changes throughout your company. Splendid Consultant can customize a quality and environmental business management system specific to your organization. A unique and effective system that will become an indispensable tool for improving process performance - regardless of the size of your company or the industry it serves.

Training Services

Training effectiveness is a key output of any type of training course. The impact from training should be a catalyst for change and continual improvement. No matter what the subject may be, a training session should always provide a *positive, memorable, and useful experience* to the participant. Unfortunately, there are too many ISO-based quality and environmental training courses offered by so-called 'experts' that become a cure for insomnia or an expensive exercise in doodling.

At Splendid Consultant, we believe that any type of quality and environmental training should be conducted utilizing a participant-centered approach. Our training courses incorporate real world scenarios and examples that can be immediately implemented into your organizations key processes. Training that provides real solutions, not theories.

Sine Die Professional Consultant beyond Partnership!

Our quality and environmental training courses use 'hands-on' exercises to reinforce the concepts taught in the classroom.

Splendid Consultant instructors illustrate and animate the subject material by sharing with the class their wealth of knowledge and on the job experience.

Many of our quality and environmental training courses can be custom-tailored to your organization's needs. We can incorporate your organization's own documentation into the course material. As an example, Splendid Consultant conducts an Internal Auditor training, While can facilitates actual internal audits with your selected internal audit team utilizing company policies, procedures, and forms. This approach is more effective than lecture-based courses that use only examples of quality control scenarios from fictional companies.

Internal audit services.

Is your internal audit system "on hold" ?

Is your ISO internal audit team "too busy" ?

Do you want to know your system strengths and weaknesses before the registrar arrives?

Let us help you transform your internal audit wish list into a manageable internal audit plan that you can use to control and improve your key processes.

Splendid Consultant can conduct internal audits that will put your system back on track. Our qualified auditors and consultants will provide thorough internal audits highlighting both strengths and weaknesses in your ISO-based management system.

If there are issues within your system that require corrective action, our auditors and consultants can help you develop simple and effective strategies to improve process performance. We can even facilitate root cause analysis sessions with key employees to ensure that corrective actions are effective and permanent.

Management system development services

Let the quality experts at Splendid Consultant show you how!

"Efficiency is doing better what is already being done."

- [Peter F. Drucker](#)

Now more than ever, companies need to re-align and focus the talents and skills of their employees to stay competitive. Priorities must be set at every level of an organization. Unfortunately, this can cause some systems to move to the back burner, ignored and in need of expert attention.

If the re-alignment of your staff and organization has caused your quality management system to lose effectiveness, Splendid Consultant can help.

"Anything that is not managed will deteriorate." - [Bob Parsons](#)

Splendid Consultant qualified and experienced consultants have the skills and knowledge necessary to make changes to your system as your organization changes. We can help maintain, and in many cases, improve the performance of your system in a very small amount of time (and money) helping you and your staff to stay focused on other priorities.
